Language: English Brand New Book ***** Print on Demand *****.Excerpt from The Information Film The American Library Association proposed to the Social Science Research Council, in 1946, that the Council conduct a thorough and comprehensive study of the American free public library. The proposal further defined the nature of the study as an appraisal in sociological, cultural and human terms . of the extent to which the libraries are achieving their objectives and of the library s potential and actual contribution to American society. The Council approved the project and submitted to the Carnegie Corporation a proposal for a two-and-a-quarter-year study, to terminate in a general, final report in June, 1949. The inquiry was designed to use, insofar as possible in the study of the public library, such techniques and experience as social scientists have accumulated for the analysis of other social institutions. The Carnegie Corporation appropriated a total of \$200,000 for support of the study. The Council selected a director to be responsible for the conduct of the Inquiry and for the preparation of a final, general report, and to serve as editor of such reports on special aspects of the study as he recommends for separate publication. A committee was appointed for the Inquiry to serve in an advisory, deliberative, and consultative capacity, under the chairmanship of the director. The Committee has reviewed and criticized the general report and the other Inquiry reports recommended for publication. The interpretations, judgments, and conclusions contained in them, however, are made solely on the authors responsibility.
