## Developing a Mature Love

---

By Sr. Burnell T Williams

Realms Fiction, United States, 2006. Paperback. Book Condition: New. 211 x 137 mm. Language: English . Brand New Book. Instead of following a typical worldview of love, dating, and marriage, author Burnell Williams introduces biblical concepts that will appeal to those who are single or married. Young people will find encouragement and wisdom in Williams' view that courting leads to marriage, while dating includes short-term pleasures that end in pain. Throughout the book, Williams delves into tough topics often taboo for a Christian author: the joy of sexual pleasure, why a Christian should remain married to a non-Christian, and why Christians should only choose strong Christians for their close circle of friends. The author also clearly defines the four different kinds of love: godly agape love, friendship-based philo love, marital storge love, and physical eros love.
